

Priima Guide - Deviation reports

INTRODUCTION

Neve uses an HSEQ application called Priima. Priima can be used via mobile application or web browser.

This guide Is made for contractors, suppliers and service providers who does not hold user ID to Priima. It contains Instructions to deviations via QR-code or a link. Every deviation report, and their author, can be seen by all users.

REPORTING A DEVIATION WITHOUT USER ID

Observations of safety, security, quality, environmental and cyber- / Information security deviations can be reported to Priima via link: http://neve.acc.fi/havainto or via QR-code (seen below). Occupational accidents and incidents must be reported without delay to the Client (e.g. by phone or via email) and recorded in Priima. The accidents and incidents must be processed by the Client and the service provider or supplier as soon as possible.

Signs with the QR-code can be found throughout Neve's locations and sites. To use: Open camera application from your mobile phone. Scan QR-code and open the link.

Neve Oy | Koskikatu 27, 4. krs. | PL 8013, 96101 Rovaniemi | Y-tunnus 0730905-1

Link opens Priima. Choose "Jatkan palveluun" / Continue to service.

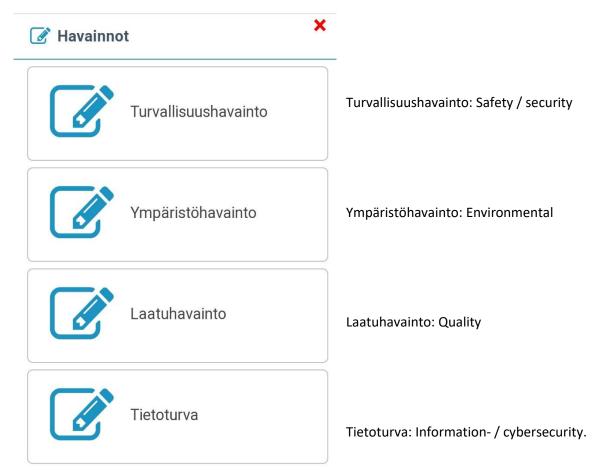

Choose "Lisää uusi havainto" / Add new deviation report.

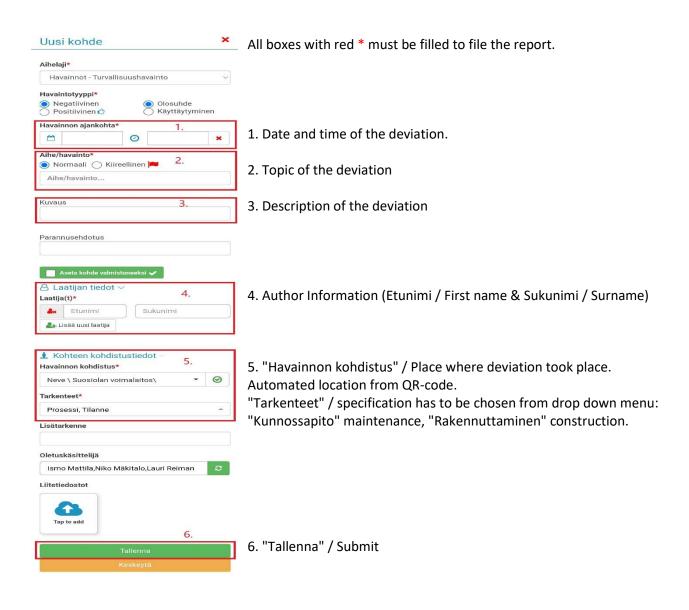

Choose the type of deviation:
